

Buy a New Motor

You don't need to find separate shops for warranty work, replacement parts, and motor sales. Industrial Electric Motor Service is your one stop shop! We make it easy for you to find what you need to keep your electric motors running. With a wide network of distribution partners, we are able to sell you any make or model at a very competitive price.

If you need something same-day, we keep a wide variety of motors and parts on the shelf. Anything in our shop is available to you 24 hours a day, 7 days a week.

ABB / Baldor Motor Stocking Distributor

Combining factory direct support with high quality local service!

- Low-level pricing on sales and service
- Factory direct support
- Local and factory educational programs
- Local failure analysis and warranty support
