

2021 Multi-Repair Discount Program

We understand that motors are the backbone of your business. Any downtime can be costly, which means that repairs need to be done quickly and affordably. While we certainly hope you never need more than a handful of repairs a year, we know that wear and tear happens with regular use, and the cost of constant replacements can add up fast.

We want to make it easy to get the repair services you need, at a price that you can afford. For 2021, Industrial Electric Motor Service, Inc. has designed the following multi-repair discount program to help you and your customers save!

Discount Program

Repairs #1-9	3% discount
Repairs #10-19	5% discount
Repairs #20+	10% discount
